

Transferring eBooks... TO A KINDLE!

Kindle users can browse the Palm Springs Library System's Digital Media Collection using your computer or Kindle, check out eBook titles using your Library Card, and have them delivered wirelessly to their Kindle device or any device running the free Kindle app!

1

Visit the Digital Media Collection website to browse and check out a Kindle eBook. Be sure that you are selecting eBooks in the Kindle format. If you need help with this step, see the handout 'How to Download eBooks.'

2

After checking out, you will be presented with a 'Get for Kindle' button. Click the 'Get for Kindle' button. This opens a new browser window at the Amazon.com website.

3

At the Amazon.com web site, click the 'Get library book' button. You may be required to sign in with your Amazon.com account information, or create an account, if you are not already logged in.

4

Select which Kindle device or Kindle reading app you want the eBook delivered to, then click the 'Continue' button.

5

Start your Kindle or Kindle app, connect to a Wi-Fi network, and sync your device. Your library eBook will now be available for reading on the go!
